

TECHNICAL DATA SHEET

Eurovent **CLIP BIBER**

Clip designed for the installation of “beaver tail” ceramic roof tiles. Made of galvanized steel strip, it is resistant to weather conditions. Ensures quick and durable fastening of the roof tile to the roof structure. Resistant to atmospheric influences.

PARAMETER	UNIT	VALUE
Material composition		Galvanized steel
Dimensions	[mm]	A= 42, B= 90, C= 64
Steel strip width	[mm]	14
Steel strip thickness	[mm]	0,9
UV resistance		resistant silver
Color		silver
Carton	[pieces]	100
Pallet	[carton /pieces]	60 / 6000

TECHNICAL DATA SHEET

Eurovent **CLIP BIBER**

Application: Used for installing “beaver tail” ceramic roof tiles. Mounted by hooking one end onto the batten and the other onto the side edge of the tile. Effectively secures the tiles against wind uplift and suction forces acting on the roof.

Safety: The product is not intended for consumption. Avoid contact with eyes. In case of skin irritation, consult a doctor.

Storage / transport: The product should be stored at room temperature, in its original packaging, in dry, covered rooms free from moisture. Under heavy loads, the product may deform. Therefore, it is recommended not to stack the product with other heavy items (both during transport and storage). The clips should be transported using covered means of transport, secured against damage. During transport, transport safety regulations must be observed. The product must be protected from the effects of chemicals that could reduce its technical properties or cause permanent damage.

The product is covered by a warranty provided that the guidelines contained in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse a complaint if these guidelines are not observed.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
