

TECHNICAL DATA SHEET

Eurovent **CLIP DC-6**

Universal clip for installing ceramic roof tiles. Made of galvanized steel wire, it ensures quick and durable fastening of tiles to the side lock. Resistant to weather conditions.

PARAMETER	UNIT	VALUE
Material composition		galvanized steel
Dimensions	[mm x mm x mm]	200 x 40 x 40
Wire diameter	[mm]	2,5
Mechanical strength under perpendicular load	[kN]	0,15
Corrosion resistance of the zinc coating in neutral salt spray	[h]	96
UV resistance		resistant
Colour		silver
Carton	[pieces]	100
Pallet	[carton/pieces]	192 / 19200

TECHNICAL DATA SHEET

Eurovent **CLIP DC-6**

Application: Used for the installation of ceramic roof tiles. Mounted on one side to the side lock or simultaneously to the side and top lock, and on the other side to the batten. Particularly recommended for roof tiles with a high lock. Provides excellent protection against wind uplift and suction forces acting on the roof.

Safety: The product is not intended for consumption. Avoid contact with eyes. In case of skin irritation, consult a doctor.

Storage / transport: The product should be stored at room temperature, in its original packaging, in dry, covered areas free from moisture. Under heavy load, the clips may deform or become damaged. Therefore, it is recommended not to stack the product with other heavy items (both during transport and storage). The clips should be transported in covered vehicles, protected against damage. During transport, applicable transport safety regulations must be observed. The product must be protected from exposure to chemicals that could reduce its technical performance or cause permanent damage.

The product is covered by warranty provided that the guidelines specified in the technical data sheet are strictly followed. The manufacturer reserves the right to reject claims in cases of non-compliance with the given instructions.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
