

TECHNICAL DATA SHEET

Eurovent **CLIP NORD-2**

The clip is made of steel wire shaped into a hook on one side, with the other side finished with a rectangular plate made of galvanized steel strip. Suitable for use with many models of concrete and ceramic roof tiles. Resistant to weather conditions.

PARAMETER	UNIT	VALUE
Material composition		galvanized steel
Dimensions	[mm x mm x mm]	65 x 20 x 15
Wire diameter	[mm]	2
Mechanical strength under perpendicular load	[kN]	0,15
Corrosion resistance of the zinc coating in neutral salt spray	[h]	96
UV resistance		resistant
Colour		silver
Carton	[pieces]	100
Pallet	[cartons /pieces]	750 / 75 000.

TECHNICAL DATA SHEET

Eurovent **CLIP NORD-2**

Application: Used for fastening concrete and ceramic roof tiles. The clip is installed by driving its sharp end into the roof structure – the batten – and then hooking the rectangular plate onto the side edge of the tile. Its application ensures effective fastening of the tile to the roof structure. The clip prevents the tiles from shifting and protects them against wind uplift.

Safety: The product is not intended for consumption. Avoid contact with eyes. In case of skin irritation, consult a doctor.

Storage / transport: The product should be stored at room temperature, in its original packaging, in dry, covered areas free from moisture. Under heavy load, the product may deform or become damaged. Therefore, it is recommended not to stack it with other heavy items (both during transport and storage). The clips should be transported in covered vehicles, protected against damage. During transport, applicable transport safety regulations must be observed. The product must be protected from exposure to chemicals that could reduce its technical performance or cause permanent damage.

The product is covered by warranty provided that the guidelines specified in the technical data sheet are strictly followed. The manufacturer reserves the right to reject claims in cases of non-compliance with the given instructions.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
