

TECHNICAL DATA SHEET

Eurovent **AIR FLEX S**

Ridge vent used as a ventilation and protective element for roof ridges, horizontal and diagonal hips, suitable for almost all types of roofing coverings. It features special ventilation openings in the upper section as well as plastic bristles forming a so-called brush.

PARAMETER	UNIT	VALUE
Material composition		polymer
Dimension	[mm x mm]	75 x 1000
UV resistance		resistant
Brush bristle length	[mm]	60-100
Color	[RAL]	brick 8004, brown 8019, black 9005, anthracite 7021, chestnut 8015, cherry red 3013
Carton	[pieces]	20
Pallet	[rolls]	200

TECHNICAL DATA SHEET

Eurovent AIR FLEX S

Application: It is used as a ventilation and protective element for roof ridges and diagonal hips. It protects the roof slope against the penetration of wind-driven snow, rain, moisture, dust, and dirt from the ridge side. It is suitable for use under almost all types of roofing coverings, including ceramic and concrete roof tiles, metal roof tiles, trapezoidal sheets, profiled aluminum sheets, etc.

The installation of the roofing covering must be carried out within 6 weeks from the moment the roof membrane is installed on the roof. The product is covered by a warranty provided that the guidelines included in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse warranty claims in the event of failure to comply with the specified guidelines.

Safety: The product is not intended for consumption. Avoid contact with eyes. In the event of skin irritation, consult a physician.

Storage / transport: The product should be stored at room temperature in dry, covered indoor areas, free from moisture and direct UV radiation. As the product is partially made of flexible aluminum sheet, it is recommended to store it in its original, closed packaging. Protect against mechanical damage. The product should be transported using covered means of transport and properly secured against damage. It must be protected from exposure to chemicals, especially solvent-based substances, as they may reduce technical performance or cause permanent damage to the product.

The product is covered by a warranty provided that the guidelines included in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse warranty claims in the event of failure to comply with the specified guidelines.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
