

TECHNICAL DATA SHEET

Eurovent **CANTILEVER G**

Bracket designed for fixing the ridge batten to the wooden structure of pitched roofs. It is made entirely of galvanized steel and is characterized by high durability and mechanical resistance.

PARAMETER	UNIT	VALUE
Material composition	[PN-EN 10111 :2009]	Stal S235JR
Coating	[Norm PN-EN ISO 2081 :2011]	Electrolytic zinc coating with a thickness of not less than 8 µm
Characteristic load capacity	[kN]	11,1
Widths	[mm]	40; 50
Length	[mm]	180; 210; 230; 260; 310
Packaging	[pcs.]	100
Pallet	[pcs.]	3 200

Eurovent CANTILEVER G

Application: Eurovent® CANTILEVER G ridge batten bracket is used as a fixing and leveling element for the ridge batten on which ridge tiles are mounted. Thanks to its use, ridge tile installation can be carried out very easily and quickly. Several bracket sizes allow it to be used with different ridge batten dimensions.

Installation: Eurovent® CANTILEVER G is fixed to the wooden roof structure by driving the bracket shank into the wooden roof structure.

Safety: The product is not intended for consumption, avoid contact with eyes. In case of skin irritation, consult a doctor.

Storage / transport: The product should be stored at room temperature, in its original packaging, in dry, covered areas free from moisture. Under heavy loads, the product may become deformed; therefore, it is recommended not to stack it with other heavy products, both during transport and storage. The product should be transported using covered means of transport and secured against damage. During transport, transport safety regulations must be observed. The product must be protected from exposure to chemicals, especially solvent-based substances, as they may reduce technical parameters or cause permanent damage to the product.

The product is covered by a warranty provided that the guidelines included in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse warranty claims in the event of failure to comply with the specified guidelines.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
