

TECHNICAL DATA SHEET

Eurovent **CANTILEVER L**

Bracket designed for fixing the ridge batten, of the “plate” type, with adjustable ridge batten holder height. Used as a fixing element during the installation of the ridge batten in ventilated pitched roofs. Made entirely of galvanized steel, it is characterized by high durability and resistance to cracking.

PARAMETER	UNIT	VALUE
Material composition	[Standard PN-EN 10346/2011; PN-EN 10143/2008]	Steel DX51D
Coating	[Standard PN-EN ISO 40 42/2001]	Electrolytic zinc coating with a thickness of not less than 8 µm
Characteristic load capacity	[kN]	
Thickness	[mm]	
Width	[mm]	40; 50
Total length	[mm]	
Body length	[mm]	
Head length	[mm]	
Packaging	[pcs.]	100
Pallet	[pcs.]	3 200

Eurovent CANTILEVER L

Application: It is used as a fixing and leveling element for the ridge batten on which ridge tiles are mounted. Thanks to its use, ridge tile installation can be carried out very easily and quickly. The bracket design allows convenient adjustment of its installation height on the ridge, as well as additional adjustment of the ridge batten holder height.

Installation: Eurovent® CANTILEVER L is fixed to the wooden roof structure by fastening the bracket arms to the roof rafter.

Safety: The product is not intended for consumption. Avoid contact with eyes. In case of skin irritation, consult a doctor.

Storage / transport: The product should be stored at room temperature in dry, covered areas free from moisture and direct UV radiation. As the product is partially made of flexible aluminum sheet, it is recommended to store it in its original, closed packaging. Protect against mechanical damage. The product should be transported using covered means of transport and properly secured against damage. The product must be protected from exposure to chemicals, especially solvent-based substances, as they may reduce technical parameters or cause permanent damage to the product.

The product is covered by a warranty provided that the guidelines included in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse warranty claims in the event of failure to comply with the specified guidelines.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
