

TECHNICAL DATA SHEET

Eurovent **CANTILEVER N**

Bracket designed for fixing the ridge batten in ventilated pitched roofs of the NORD type, equipped with a threaded nail. The bracket is made entirely of galvanized steel and is characterized by high durability and resistance to cracking. Thanks to the threaded nail, installation is simple and precise. The threading also allows immediate adjustment of the bracket installation height.

PARAMETER	UNIT	VALUE
Material composition	[Standard PN-EN 10346/2011; PN-EN 10143/2008]	Steel DX51D
Coating	[Standard PN-EN ISO 40 42/2001]	Electrolytic zinc coating with a thickness of not less than 8 μm
Characteristic load capacity	[kN]	
Width	[mm]	40; 50
Length	[mm]	180; 210; 260
Packaging	[pcs.]	100
Pallet	[pcs.]	3 200

Eurovent **CANTILEVER N**

Application: It is used as a fixing and leveling element for the ridge batten on which ridge tiles are mounted. Thanks to its use, ridge tile installation can be carried out quickly and easily. Several bracket sizes allow it to be used with different ridge batten dimensions.

Installation: Eurovent[®] CANTILEVER N is fixed to the wooden roof structure by screwing the bracket shank into the roof structure.

Safety: The product is not intended for consumption. Avoid contact with eyes. In case of skin irritation, consult a doctor.

Storage / transport: The product should be stored at room temperature in dry, covered areas free from moisture and direct UV radiation. As the product is partially made of flexible aluminum sheet, it is recommended to store it in its original, closed packaging. Protect against mechanical damage. The product should be transported using covered means of transport and properly secured against damage. The product must be protected from exposure to chemicals, especially solvent-based substances, as they may reduce technical parameters or cause permanent damage to the product.

The product is covered by a warranty provided that the guidelines included in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse warranty claims in the event of failure to comply with the specified guidelines.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
