

TECHNICAL DATA SHEET

Eurovent **CLIP**

Snowguard connector enabling the connection of elements in series. Made of hot-dip galvanized steel sheet. Available in a galvanized version and in several colour versions, powder-coated according to the RAL colour chart.

PARAMETER	UNIT	VALUE
Material composition		Steel grade S235JR
Length	[mm]	60
Steel sheet thickness	[mm]	0.8
Paint coating thickness	[μ m]	≥ 60
Corrosion protection		Hot-dip galvanized
Zinc coating thickness	[μ m]	≥ 55
Colour	[RAL]	brick 8004, brown 8017, brown 8019, anthracite 7016, black 9005, chestnut 3009, cherry 3004
Packaging	[pieces]	50

TECHNICAL DATA SHEET

Eurovent **CLIP**

Application: It is used as a component enabling the proper connection of two Eurovent[®] SNOWSTOPPER snow guards in series. To make the connection, two connectors are required, which fasten the lower and upper edge of the snow guard.

Safety: The product is not intended for consumption, avoid contact with eyes. In case of skin irritation, consult a doctor.

Storage / transport: The product should be stored at room temperature, in its original packaging, in dry, covered rooms, free from moisture. The beam bracket may deform or lose shape under heavy load. Therefore, it is recommended not to stack the product with other heavy items (both during transport and storage). Beam brackets should be transported in covered vehicles, secured against damage. During transport, all transport safety regulations must be observed. The product must be protected from exposure to chemicals that could reduce its technical performance or cause permanent damage.

The product is covered by warranty provided that the guidelines contained in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse warranty claims in case of non-compliance with these guidelines.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
