

TECHNICAL DATA SHEET

Eurovent **COMB VENTI**

Eaves comb with ventilation grille made of high-quality polypropylene using injection molding technology. It consists of a flat comb and an additional ventilation grille, allowing it to replace the eaves batten.

PARAMETER	UNIT	VALUE
Material composition		polypropylene PP
Width	[mm]	85
Length	[mb]	1
Tensile strength	[Mpa]	≥20
Softening temperature	[°C]	≥85
Color	[RAL]	brick red 8004; brown 8019; black 9005
Package	[pieces]	50
Pallet	[pieces]	1000

Eurovent **COMB VENTI**

Application: Used to protect the eaves area of the roof against birds, rodents, and larger insects. It shields the protected area from blown-in leaves and other debris, while ensuring proper air circulation in the roof area. The use of the product allows for the omission of the eaves batten, which significantly facilitates the installation of gutter hooks. Suitable for use with most types of roof coverings.

Safety: The product is not intended for consumption. Avoid contact with eyes. In case of skin irritation, consult a doctor.

Storage / transport: The product should be stored at room temperature, in its original packaging, in dry, covered rooms free from moisture. The combs may deform under heavy loads; therefore, it is recommended not to stack the product with other heavy items (both during transport and storage). The combs should be transported using covered means of transport, secured against damage. During transport, transport safety regulations must be observed. The product must be protected from the effects of chemicals that could reduce its technical properties or cause permanent damage.

The product is covered by a warranty provided that the guidelines contained in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse a complaint if these guidelines are not observed.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
