

## TECHNICAL DATA SHEET

### Eurovent **COMB X**

Eaves comb made of high-quality polypropylene using injection molding technology. It is used as a ventilation element for the eaves area in pitched roofs. Thanks to special additives, it is resistant to weather conditions.

PARAMETER	UNIT	VALUE
Material composition		PP
Dimensions	[mm x mb]	60; 80; 100 x 1
Base width	[mm]	28
UV resistance		Resistant
Weather resistance		Resistant
Ageing resistance		Resistant
Color	[RAL]	brick red 8004, brown 8019, black 9005.
Packaging	[pieces]	60 mm – 300 pieces; others – 50 pieces
Pallet	[pieces]	60 mm – 6000 pieces; 80 mm – 4000 pieces; 100 mm – 2100 pieces

## TECHNICAL DATA SHEET

### Eurovent **COMB X**

**Application:** Used to protect the roof eaves against birds, rodents, and larger insects. It protects the eaves area from blown-in leaves and other debris, while ensuring proper air circulation in this part of the roof. Suitable for use with most types of roof coverings.

**Safety:** The product is not intended for consumption. Avoid contact with eyes. In case of skin irritation, consult a doctor.

**Storage / transport:** The product should be stored at room temperature, in its original packaging, in dry, covered rooms free from moisture. The combs may deform under heavy loads; therefore, it is recommended not to stack the product with other heavy items (both during transport and storage). The combs should be transported using covered means of transport, secured against damage. During transport, transport safety regulations must be observed. The product must be protected from the effects of chemicals that could reduce its technical properties or cause permanent damage.

The product is covered by a warranty provided that the guidelines contained in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse a complaint if these guidelines are not observed.

*Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.*
