UV resistance		resistant
Softening temperature PN-EN ISO 306:2006/B50	[°C]	≥ 75
Color	[RAL]	brick 8004, brown 8019, black 9005
Box	[pcs]	50
Pallet	[pcs]	12 250

## TECHNICAL DATA SHEET

### Eurovent **DECK**

**Application:** The Eurovent DECK is designed for closing the roof ridge at gable walls. Provides proper air circulation within the ridge area and protects it against penetration of unwanted objects such as leaves, branches and insects. Its universal shape makes it suitable for installation in majority of roof tiles available in the market.

**Safety:** The product is not intended for consumption, avoid contact with eyes. In case of skin irritation, consult a doctor.

**Storage / transport:** The product should be stored at room temperature, in its original packaging, in dry, covered areas free from moisture. Under heavy loads, the product may become deformed; therefore, it is recommended not to stack it with other heavy products, both during transport and storage. The product should be transported using covered means of transport and secured against damage. During transport, transport safety regulations must be observed. The product must be protected from exposure to chemicals, especially solvent-based substances, as they may reduce technical parameters or cause permanent damage to the product.

The product is covered by a warranty provided that the guidelines included in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse warranty claims in the event of failure to comply with the specified guidelines.

*Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.*
