Carton	[pieces]	20
Pallet	[cartons / pieces]	40 / 800

Eurovent EAVES PLANK

Application: It is used as reinforcement and protection of the eaves in the area responsible for draining water into the gutter system. It protects against moisture and facilitates water drainage while providing an aesthetic finish. Shaped to allow easy and quick installation.

Safety: The product is not intended for consumption. Avoid contact with eyes. In case of skin irritation, consult a doctor.

Storage / transport: The product should be stored at room temperature, in its original packaging, in dry, covered rooms free from moisture. Under heavy loads, the product may deform or become damaged, including deterioration of the coating. Therefore, it is recommended not to stack the product with other heavy items (both during transport and storage). It should be transported using covered means of transport, secured against damage. During transport, transport safety regulations must be observed. The product must be protected from the effects of chemicals that could reduce its technical properties or cause permanent damage.

The product is covered by a warranty provided that the guidelines contained in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse a complaint if these guidelines are not observed.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
