

TECHNICAL DATA SHEET

Eurovent END TUBE

Snow guard pipe end cap made of plastic. Used for sealing the ends of snow guard pipes.

PARAMETER	UNIT	VALUE
Material composition		Steel grade S235JR
Brittleness temperature	[°C]	< -100
Vicat softening point (1 kg)	[°C]	88
Tensile stress	[Mpa]	2
Breaking stress	[Mpa]	8
Dimension	[mm]	Ø 32
Colour	[RAL]	Black 9005
UV resistance		Resistant
High temperature resistance		Resistant
Low temperature resistance		Resistant
Resistance to environmental stress cracking		Resistant
Packaging	[pieces]	10

TECHNICAL DATA SHEET

Eurovent **END TUBE**

Application: Element for sealing snow guard pipes with a Ø 32 mm cross-section.

Safety: The product is not intended for consumption, avoid contact with eyes. In case of skin irritation, consult a doctor.

Storage / transport: The product should be stored at room temperature, in its original packaging, in dry, covered rooms, free from moisture. The beam bracket may deform or lose shape under heavy load. Therefore, it is recommended not to stack the product with other heavy items (both during transport and storage). Beam brackets should be transported in covered vehicles, secured against damage. During transport, all transport safety regulations must be observed. The product must be protected from exposure to chemicals that could reduce its technical performance or cause permanent damage.

The product is covered by warranty provided that the guidelines contained in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse warranty claims in case of non-compliance with these guidelines.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
