

TECHNICAL DATA SHEET

Eurovent **FIX DB-DC**

One-piece snow guard bracket made of hot-dip galvanized steel sheet. Used as a fastening element for attaching the snow guard to the roofing. Available in a galvanized version and in several colour versions, powder-coated according to the RAL colour chart.

PARAMETER	UNIT	VALUE
Material composition		Steel grade S235JR
Type of covering		For concrete and ceramic roof tiles
Paint coating thickness	[µm]	≥ 60
Corrosion protection		Hot-dip galvanized
Zinc coating thickness	[µm]	≥ 55
Colour	[RAL]	brick 8004, brown 8017, brown 8019, anthracite 7016, black 9005, chestnut 3009, cherry 3004
Packaging	[pieces]	5

Eurovent **FIX DB-DC**

Application: It is used as a bracket for the Eurovent[®] SNOWSTOPER snow guard. Serving as a protective element, it enables the proper fastening of the snow guard on pitched roofs covered with concrete or ceramic tiles. The bracket is mounted together with the Eurovent[®] SNOWSTOPER snow guard by pressing and bending the fastening element using the “click” technique.

Installation: Mounted directly to the roof structure using an additional batten with screws.

Safety: The product is not intended for consumption, avoid contact with eyes. In case of skin irritation, consult a doctor.

Storage / transport: The product should be stored at room temperature, in its original packaging, in dry, covered rooms, free from moisture. The beam bracket may deform or lose shape under heavy load. Therefore, it is recommended not to stack the product with other heavy items (both during transport and storage). Beam brackets should be transported in covered vehicles, secured against damage. During transport, all transport safety regulations must be observed. The product must be protected from exposure to chemicals that could reduce its technical performance or cause permanent damage.

The product is covered by warranty provided that the guidelines contained in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse warranty claims in case of non-compliance with these guidelines.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
