

TECHNICAL DATA SHEET

Eurovent **FIX TUBE METAL FLAT**

Eurovent[®] FIX TUBE METAL FLAT snow guard pipe bracket is made of galvanized steel sheet. It enables the installation of two snow guard pipes on flat metal roofing in the form of profiled panels with standing seam joints and installed using the "CLICK" snap-in system. Available in several color versions with powder coating. On request, it is also available in a version for mounting a single pipe. Suitable for use on roof slopes with a pitch from 15° to 60°.

PARAMETER	UNIT	VALUE
Material composition		Stal gat. S235JR
Flat bar width	[mm]	Flat bar 30
Bracket length	[mm]	A: 270
Fin height	[mm]	Ok. 180
Steel sheet thickness	[mm]	Flat bar - 4 Fin - 3
Hole diameter	[mm]	Ø 30
Hole spacing	[mm]	47
Color	[RAL]	brick red 8004, brown 8017, brown 8019, anthracite 7016, graphite 7024, black 9005, cherry red 3004, chestnut 3009, cherry red 3011
Corrosion protection		Hot-dip galvanized
UV resistance		Resistant
Packaging	[pieces]	10

Eurovent **FIX TUBE METAL FLAT**

Application: Eurovent® FIX TUBE METAL FLAT snow guard pipe bracket is used as a snow guard pipe support. It serves as a protective element enabling secure and efficient installation of a snow guard pipe on pitched roofs with panels made of flat metal sheets finished with standing seam joints. Installation is quick and easy – mounted directly to the roof structure using screws. The set includes fixing screws.

Safety: The product is not intended for consumption. Avoid contact with eyes. In the event of skin irritation, consult a physician.

Storage / transport: The product should be stored at room temperature, in its original packaging, in dry, covered areas free from moisture. Under heavy loads, the bracket may become deformed; therefore, it is recommended not to stack the product with other heavy items, both during transport and storage. The brackets should be transported using covered means of transport and properly secured against damage. Transport safety regulations must be observed during transportation. The product must be protected from exposure to chemicals that could reduce its technical performance or cause permanent damage.

The product is covered by a warranty provided that the guidelines included in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse warranty claims in the event of failure to comply with the specified guidelines.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
