

TECHNICAL DATA SHEET

Eurovent **GRIP CREATON**

Ridge clip for quick and durable installation of Creaton ridge tiles onto ridge or hip battens. Made of aluminium sheet coated with weather-resistant polyester paint, fixed with two screws.

PARAMETER	UNIT	VALUE
Material		Aluminium sheet coated with polyester paint
Dimensions	[mm]	Model 470/24: A= 43±1, B=28±1, C= 25±1
Roll length	[mb]	5
Aluminium tape	[mm]	Width: 18,2 lub 19 Thickness: 1,0 ÷ 1,8
UV resistance		resistant
Cardboard	[pcs.]	50
Pallet	[cardboard / pcs.]	200 / 10 000

Eurovent GRIP CREATON

Application: It is used for fixing most ridge tiles to the ridge batten. Fastened with two screws to the ridge batten and hooked at the top over the ridge tile, it ensures a stable installation and resistance to wind uplift and suction. Its shape and profile make it compatible with most Creaton roof tiles.

Safety: The product is not intended for consumption, avoid contact with eyes. In case of skin irritation, consult a physician.

Storage / transport: The product should be stored at room temperature, in original packaging, in dry, covered, and moisture-free areas. The clips are made of aluminium sheet, which may deform or bend under excessive weight. Therefore, it is recommended not to stack the product with other heavy items, both during transport and storage. The clips must be transported using covered vehicles, protected against damage. During transport, all applicable transport safety regulations must be observed. The product must be protected from exposure to chemicals that could degrade its technical properties or cause permanent damage.

The product is covered by a warranty provided that all guidelines specified in the technical data sheet are strictly followed. The manufacturer reserves the right to reject any claims if these instructions are not adhered to.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
