

TECHNICAL DATA SHEET

Eurovent GRIP TONDACH

Ridge clip designed for quick and durable installation of Tondach ridge tiles onto ridge or hip battens. Made of aluminium sheet coated with weather-resistant polyester paint, fixed with two screws.

PARAMETER	UNIT	VALUE
Material		Aluminium sheet coated with polyester paint
Dimensions	[mm]	Model 470/85: A= 43±1, B=50±1, C= 34,5±1, D=28,2±1
Aluminium tape	[mm]	Width: 18,8 Thickness: 1,0
UV resistance		resistant
Cardboard	[pcs.]	50
Pallet	[cardboard / pcs.]	200 / 10 000

Eurovent GRIP TONDACH

Application: It is used for fixing ridge tiles to the ridge batten. Fastened with two screws to the ridge batten and hooked at the top over the ridge tile, it ensures stable positioning and resistance to wind uplift and suction. Its design and profile make it compatible with most Tondach roof tiles.

Safety: The product is not intended for consumption. Avoid contact with eyes. In case of skin irritation, consult a doctor.

Storage / transport: The product should be stored at room temperature, in its original packaging, in dry, covered, and moisture-free indoor areas. The clips are made of aluminium sheet, which may deform or become damaged under excessive weight. Therefore, stacking with other heavy products—either during transport or storage—is not recommended. The clips should be transported using covered vehicles and properly secured against damage. All transport safety regulations must be observed during handling. The product must be protected from exposure to chemicals that could compromise its technical properties or cause permanent damage. The product is covered by a warranty, provided that all guidelines specified in the technical data sheet are strictly followed. The manufacturer reserves the right to reject any claims resulting from failure to comply with these instructions.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
