

TECHNICAL DATA SHEET

Eurovent **SNOWSTOP DC-9**

The snow guard is used as an element to break up large amounts of snow sliding down the roof slope towards the eaves. It is made entirely of galvanized steel and coated on both sides with polyester paint. Available in several colors according to the RAL palette. Dedicated to a specific group of roofing manufacturers.

| PARAMETER | UNIT | VALUE |
|-------------------------------|---------------------|---|
| Material composition | | Steel sheet |
| Type of roofing | | For roof tiles CREATON: BALANCE |
| Steel sheet thickness | [mm] | 1,20 - 1,5 (±0,20) |
| Corrosion resistance category | [standard System 4] | C1; C2; C3; |
| Strength | [kN] | min. 0,75 |
| UV resistance | | Resistant |
| Color | [RAL] | Brick 8004; brown 8017; chestnut 8012; black 9005; anthracite 7016; |
| Packaging | [pieces] | 100 |
| Palette | [pieces] | 3 000 |

Eurovent SNOWSTOP DC-9

Application and installation: Used on pitched roofs as a snow guard for breaking up snow. Installed behind an additional batten or individual roof tiles using a specially profiled end. This solution breaks large amounts of snow sliding off the roof into smaller pieces, preventing them from posing a danger to people near the building.

Safety: The product is not intended for consumption, avoid contact with eyes. In case of skin irritation, consult a doctor.

Storage / transport: The product should be stored at room temperature, in its original packaging, in dry, covered rooms free from moisture. Under heavy load, the bracket may deform and warp. Therefore, stacking with other heavy products (both during transport and storage) is not recommended. Brackets should be transported in covered vehicles, secured against damage. During transport, transport safety regulations must be observed. The product must be protected against chemical agents that could reduce its technical performance or cause permanent damage.

The product is covered by a warranty provided that the guidelines contained in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse warranty claims in case of non-compliance with these guidelines.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
