

## TECHNICAL DATA SHEET

### Eurovent **SNOWSTOPPER**

The snow guard fence is made of galvanized steel and is used as a protective element preventing large amounts of snow from sliding off the roof slope. It protects gutters from being torn off. Installed in combination with a bracket on roof slopes with a pitch from 10° to 90°.

| PARAMETER               | UNIT     | VALUE   |
|-------------------------|----------|---|
| Material composition    |          | Steel grade S235JR  |
| Width                   | [mm]     | approx. 200;  |
| Length                  | [m]      | 1,2; 2,0; 3,0   |
| Paint coating thickness | [µm]     | ≥ 60  |
| Corrosion protection    |          | Hot-dip galvanized  |
| Zinc coating thickness  | [µm]     | ≥ 55  |
| UV resistance           |          | Resistant   |
| Color                   | [RAL]    | brick 8004, brown 8017, brown 8019, anthracite 7016, black 9005, chestnut 3009, cherry 3004 |
| Packaging               | [pieces] | 2   |

## Eurovent SNOWSTOPPER

**Application and installation:** It is used as a snow protection element for pitched roofs. Thanks to a wide range of brackets, the product can be adapted to most types of roofing, including flat sheet coverings finished with standing seams. It is mounted to the bracket by pressing and bending the fastening element using the so-called "click" system.

**Safety:** The product is not intended for consumption. Avoid contact with eyes. In case of skin irritation, consult a doctor.

**Storage / transport:** The set should be stored at room temperature, in its original packaging, in dry, covered rooms free from moisture. Under heavy load, the components may become deformed or damaged, including the zinc and paint coating. Therefore, it is recommended not to stack the product with other heavy items (both during transport and storage). It should be transported in covered vehicles, protected against damage. Transport safety regulations must be observed. The product should be protected from chemical agents that could reduce its technical properties or cause permanent damage.

The product is covered by a warranty provided that the guidelines contained in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse warranty claims in the event of non-compliance with these guidelines.

*Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.*
