## Eurovent **SUPPORT DB-DC LONG**

**Application:** The Eurovent<sup>®</sup> SUPPORT DB-DC LONG bracket is used as a roof communication element, enabling efficient installation of the Eurovent<sup>®</sup> PLATFORM chimney walkway or the Eurovent<sup>®</sup> STEP chimney step on profiled coverings made of concrete or ceramic roof tiles. When installing a chimney walkway, the universal Eurovent<sup>®</sup> GRIP fastener must also be used.

**Installation:** Mounted directly to the roof structure with an additional batten using screws.

**Safety:** The product is not intended for consumption, avoid contact with eyes, and in case of skin irritation consult a doctor.

**Storage / transport:** The product should be stored in dry, covered areas, free from moisture and direct UV radiation. Under heavy load, the product may deform, warp, or suffer damage to the galvanized and painted coating. Therefore, it is recommended not to stack the product with other heavy items (both during transport and storage). It should be transported in covered vehicles, secured against damage. During transport, transport safety regulations must be observed. The product must be protected against exposure to chemical agents, especially solvent-based substances, as they may reduce its technical performance or cause permanent damage.

The product is covered by warranty provided that the guidelines contained in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse warranty claims in case of non-compliance with the presented guidelines.
