Eurovent **SUPPORT METAL 350/20**

Application: It is used as a roof communication element enabling efficient installation of the Eurovent® PLATFORM chimney walkway or the Eurovent® STEP chimney step on roof coverings made of profiled metal roof tiles with a 350/20 module. When installing the Eurovent® PLATFORM chimney walkway, the universal Eurovent® GRIP fastener must also be used.

BRACKET	LENGTH OF THE METAL ROOF TILE MODULE "M" [mm]	EMBOSSING HEIGHT "H" [mm]
SUPPORT METAL 350/20	350	20

Installation: The set is mounted directly to the roof structure with a batten using screws.

Safety: The product is not intended for consumption, avoid contact with eyes, and in case of skin irritation consult a doctor.

Storage / transport: The product should be stored in dry, covered rooms, free from moisture and direct UV radiation. Under heavy load, the product may deform, bend, or damage the galvanized and painted coating. Therefore, it is recommended not to stack the product with other heavy items (both during transport and storage). Transport should be carried out in covered vehicles, secured against damage. During transport, applicable transport safety regulations must be observed. The product must be protected from exposure to chemicals, particularly solvent-based substances, as they may reduce its technical performance or cause permanent damage.

The product is covered by a warranty provided that the guidelines specified in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse warranty claims in case of non-compliance with the given instructions.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
