## Eurovent **SUPPORT METAL 350/35**

**Application:** It is used as a roof communication element, enabling the proper installation of the Eurovent® PLATFORM chimney walkway or the Eurovent® STEP chimney step on roofing made of profiled roof tiles with the 350/35 module. When installing the Eurovent® PLATFORM chimney walkway, the universal Eurovent® GRIP holder should additionally be used.

**Installation:** The set is mounted directly to the roof structure with a batten using screws.

**Safety:** The product is not intended for consumption, avoid contact with eyes, and in case of skin irritation consult a doctor.

**Storage / transport:** The product should be stored in dry, covered rooms, free from moisture and direct UV radiation. Under heavy load, the product may deform, warp, or suffer damage to the galvanized and painted coating. Therefore, it is recommended not to stack the product with other heavy items (both during transport and storage). Transport should be carried out in covered vehicles, secured against damage. During transport, all transport safety regulations must be observed. The product must be protected from exposure to chemicals, particularly solvent-based substances, as these may reduce its technical parameters or cause permanent damage.

The product is covered by warranty provided that the guidelines contained in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse warranty claims in case of non-compliance with these guidelines.
