## Eurovent SUPPORT METAL 400/20

**Application:** It is used as a roof communication element enabling efficient installation of the Eurovent® PLATFORM chimney walkway or the Eurovent® STEP chimney step on roof coverings made of profiled metal roof tiles with a 400/20 module. When installing the Eurovent® PLATFORM chimney walkway, the universal Eurovent® GRIP fastener must also be used.

BRACKET	LENGTH OF THE METAL ROOF TILE MODULE "M" [mm]	EMBOSSING HEIGHT "H" [mm]
SUPPORT METAL 400/20	400	20

**Installation:** Mounted to the roof decking, i.e. metal roof tiles, as well as under the batten using screws.

**Safety:** The product is not intended for consumption, avoid contact with eyes, and in case of skin irritation consult a doctor.

**Storage / transport:** The product should be stored in dry, covered rooms, free from moisture and direct UV radiation. Under heavy load, the product may deform, bend, or damage the galvanized and painted coating. Therefore, it is recommended not to stack the product with other heavy items (both during transport and storage). Transport should be carried out in covered vehicles, secured against damage. During transport, applicable transport safety regulations must be observed. The product must be protected from the effects of chemicals, particularly solvent-based substances, as they may reduce its technical performance or cause permanent damage.

The product is covered by a warranty provided that the guidelines specified in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse warranty claims in case of non-compliance with the given instructions.
