

## TECHNICAL DATA SHEET

### Eurovent **VALLEY CLIP**

Roof valley clip made of aluminum sheet coated with polyester paint. It features mounting holes and is profiled to allow quick and easy installation of the roof valley to the roof structure.

PARAMETER	UNIT	VALUE
Material		aluminum sheet
Aluminium thickness	[mm]	0,55 (+/- 0,2)
Paint coating thickness	[µm]	15 - 25
UV resistance		Resistant
Color	[RAL]	brick red 8004; brown 8017; brown 8019; anthracite 7021; black 9005
Carton	[pieces]	50
Pallet	[carton / pieces]	200 / 10 000

## TECHNICAL DATA SHEET

### Eurovent **VALLEY CLIP**

**Application:** Used as a fixing element for transverse roof valleys to the roof structure. The clip is quick and easy to install, and its use eliminates the need to create additional installation holes in the valley itself, which could otherwise lead to leaks in the structure.

**Safety:** The product is not intended for consumption. Avoid contact with eyes. In the event of skin irritation, consult a physician.

**Storage / transport:** The product should be stored at room temperature, in its original packaging, in dry, covered areas free from moisture. Under load, the product may become deformed, damaged, or the paint coating may be affected; therefore, it is recommended not to stack the product with other heavy items, both during transport and storage. The product should be transported using covered means of transport and properly secured against damage. Transport safety regulations must be observed during transportation. The product must be protected from exposure to chemicals that could reduce its technical performance or cause permanent damage.

The product is covered by a warranty provided that the guidelines included in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse warranty claims in the event of failure to comply with the specified guidelines.

*Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.*
