

TECHNICAL DATA SHEET

Eurovent **VALLEY L**

Longitudinally profiled roof valley, made of aluminum sheet coated with polyester paint and a protective film that serves as a crucial safeguard during installation. It ensures proper drainage of water from the roof area.

PARAMETER	UNIT	VALUE
Material composition		Aluminum sheet coated with polyester paint
Sheet metal		Profiled, painted aluminum approx. 0.55 mm thick ($\pm 10\%$)
Coating		Polyester coating covered with protective film
Dimensions	[mm x mb]	500 x 2
Colour	[RAL]	brick red 8004; brown 8019; brown 8017; black 9005; anthracite 7021; chestnut 8015; chestnut 8012; cherry 3011
Carton	[pieces]	10
Pallet	[packages / pieces]	40 / 400

Eurovent **VALLEY L**

Application: Used as a protective and sealing element responsible for draining water from between two adjoining roof slopes. Its dimensions and design make it suitable for valley flashing with most roofing types available on the market. It protects the roof valley area and supports water drainage, while being quick and easy to install. An additional protective film safeguards the painted coating against potential damage during installation.

Safety: The product is not intended for consumption, avoid contact with eyes. In case of skin irritation, consult a doctor.

Storage / transport: The product should be stored in its original packaging, in dry, covered rooms, free from moisture. Wedge gaskets may deform and lose shape under heavy and prolonged load. Therefore, it is recommended not to stack the product with other heavy items (both during transport and storage). Transport should be carried out in covered vehicles, secured against damage. During transport, all transport safety regulations must be observed. The product must be protected from exposure to chemicals that could reduce its technical performance or cause permanent damage.

The product is covered by warranty provided that the guidelines contained in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse warranty claims in case of non-compliance with these guidelines.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
