

TECHNICAL DATA SHEET

Eurovent **WEDGE 4**

Trapezoidal wedge made of polyurethane foam, coated on one side with self-adhesive adhesive, ensuring quick and easy installation. Designed for sealing the connection between the roof valley and the roof slope. Perfectly adapts to the shape of the roofing covering.

PARAMETER	UNIT	VALUE
Material		Polyurethane foam
Dimensions	[mm x mm x mb]	40 x 30 x 1; 40 x 30 x 2
Adhesive		Hot-melt
UV Resistance		Resistant
Apparent Density (net)	[kg/m ³]	19–21
Hardness (ILD 40%)	[N]	140–185
Compression Set (50%, 22 h, 70°C), max	[%]	6
Elongation at Break, min	[%]	150
Tensile Strength, kPa, min	[kPa]	90
Elastic Recovery, min	[%]	35
Color		Brick red, brown, anthracite
Packaging	[pieces]	100
Pallet	[packages / pieces]	16 / 1600

Eurovent **WEDGE 4**

Application: It is used for sealing roof flashings, primarily roof valleys. It protects the roof against the penetration of wind-driven snow, rain, moisture, dust, and dirt from the valley side. The elasticity and closed-cell structure ensure effective sealing, while the self-adhesive base of the wedge allows for quick and efficient installation in the roof valley.

Storage / transport: The product should be stored in its original packaging, in dry, covered areas free from moisture. Under heavy and long-term loads, wedge seals may become deformed; therefore, it is recommended not to stack the product with other heavy items, both during transport and storage. The product should be transported using covered means of transport and properly secured against damage. Transport safety regulations must be observed during transportation. The product must be protected from exposure to chemicals that could reduce its technical performance or cause permanent damage.

The product is covered by a warranty provided that the guidelines included in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse warranty claims in the event of failure to comply with the specified guidelines.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
