

TECHNICAL DATA SHEET

Eurovent **WEDGE X**

A polyurethane foam wedge in the shape of a right-angled triangle, coated on one side with self-adhesive glue for easy and quick installation. Designed for sealing the joint between the roof valley and the roof slope. Perfectly adapts to the shape of the roofing.

PARAMETER	UNIT	VALUE
Material composition		Polyurethane foam
Dimensions	[mm x mm x mb]	60 x 30 x 1
Adhesive		Hot-melt adhesive
UV resistance		Resistant
Apparent density (net)	[kg/m ³]	19–21
Hardness (ILD 40%)	[N]	140–185
Compression set (50%, 22h, 70°C), max	[%]	6
Elongation at break, min	[%]	150
Tensile strength, kPa, min	[kPa]	90
Resilience, min	[%]	35
Colour		brick red, brown, anthracite
Packaging	[pieces]	200
Pallet	[packages / pieces]	20 / 2,000

TECHNICAL DATA SHEET

Eurovent **WEDGE X**

Application: It is used for sealing roof flashings – mainly the roof valley. It protects the roof against snow, rain, moisture, dust, and dirt blown under the covering from the valley side. The elasticity and closed-cell structure ensure effective sealing, while the self-adhesive base of the wedge allows for quick and efficient installation to the roof valley.

Safety: The product is not intended for consumption, avoid contact with eyes. In case of skin irritation, consult a doctor.

Storage / transport: The product should be stored in its original packaging, in dry, covered rooms, free from moisture. Wedge gaskets may deform and lose shape under heavy and prolonged load. Therefore, it is recommended not to stack the product with other heavy items (both during transport and storage). Transport should be carried out in covered vehicles, secured against damage. During transport, all transport safety regulations must be observed. The product must be protected from exposure to chemicals that could reduce its technical performance or cause permanent damage.

The product is covered by warranty provided that the guidelines contained in the technical data sheet are strictly followed. The manufacturer reserves the right to refuse warranty claims in case of non-compliance with these guidelines.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
